

ROBINIA WORKSHOP

11th–13th
May 2016

Innovative Ideas for Robinia Utilization
from additional Sources to new Application

Dear colleagues, dear Robinia enthusiast

We are planning to have a workshop from 11th to 13th May 2016 in Sopron about existing knowledge in Robinia research and future ideas for an innovative utilization of this partly underused fantastic native material on practical or industrial level! The workshop should also inform you about new research plans we are developing in Sopron at both Faculties (dealing with forestry research and wood material research). This also includes an overview about our new Research Center and the possible methods and measurements we can realize here! Also a continuation and deepening of our existing common contacts and work topics are additional aims and reasons to perform this workshop! The date of this workshop will be Thursday 12th of May (focus on research) and Friday 13th May 2016 (focus on application), including following topics:

- Overview about the state of the art of Robinia research
- New innovative ideas of Robinia supply and utilization
- Contacts with industry, foresters and regional administration

Overview
first time schedule

Wednesday 11th May 2016:
